WORLDSTREAM CLOUD PORTAL MANAGE MULTIPLE COMMUNITIES WITH ONE PORTAL

The WorldStream Cloud Portal is a cutting-edge cloud-based management system that integrates seamlessly with License Plate Recognition cameras. This system offers real-time updates on operational status, and customer data. Featuring advanced cloud intelligence and integrated applications, it stands as the most comprehensive, secure, and functional management system available.

CALL WHEN HERE
CAMERA-FREE, HARDWARE-FREE, AND APP-FREE ACCESS WITHOUT BLUETOOTH NEEDS

CallWhenHere enables vehicle-based access to properties through speed-dialling a gate number, requiring only a registered and active phone number. Residents can pre-reserve access for visitors or themselves. This software allows property managers to control parking for residents via an online portal, avoiding issues with lost or shared access fobs or keys. CallConnect is a virtual intercom system that eliminates the need for a physical station, ideal for both remote and local concierges.

LPR EXPRESS
KEEP TENANTS SAFE & TRESPASSERS OUT

LPR Express, a leader in License Plate Recognition, offers swift and automated gate access through its cameras that read license plates upon vehicle entry and exit. Using artificial intelligence and algorithms, our system is able to achieve 99.9% read rates. Secondary innovation guarantees 100% access (no missed plates.)
